

路旁上落貨區監測系統

Kerbside Loading and Unloading Bay Monitoring System

概念驗證測試

Proof of Concept Trial

探討如何應用人工智能及影像分析技術，辨認不正確地使用上落貨區的行為和提供實時空置情況。

Explore the use of artificial intelligence and video analytic technologies to detect improper use of loading and unloading bays and provide real-time vacancy information.

2018年4月展開

Commence in April 2018

巧明街 How Ming Street

海濱道 Hoi Bun Road

— 監測範圍
Monitoring area

● 設置攝影機的燈柱(約五米高)
Lamp post to be installed with CCTV
Camera (about 5 meters high)

正確使用上落貨區

Proper Use of Loading and Unloading Bay

- ✓ 上落貨
